Anesthetic/Surgical Risks: These may include hemorrhage, hypothermia, decreased heart rate or respiratory rate, death, post-operation complications (surgical site breakdown, secondary infections, constrictions/stricture etc.)

I have been advised of the risks and possible complications of my pet's procedure and that results and/or expected outcome cannot be guaranteed.

I understand that payment is done at the time of service and that I am fully financially responsible for any and all services rendered.

I understand also that there is always a risk associated with any anesthesia episode, even in apparently healthy animals and have discussed my concerns with the veterinarians.

I hereby authorize anesthesia/surgery for my pet. I understand that some risks always exist with anesthesia and/or surgery. My signature on this consent form indicates that any questions have been answered to my satisfaction. I understand that there are complications associated with any anesthetic or surgical procedure. In particular, I have been advised that there is risk of death, complications, or side effect (which can present themselves well after the procedure) every time an anesthetic is used and that I have been advised of the possibility. I acknowledge these risks and understand that the veterinarians and hospital staff will try to minimize such risks. I will not hold Pet Doctors Veterinary Supplies and Services, the veterinarians, or any staff member liable for any complications that may arise.

I affix my signature below to confirm my willingness of subjecting my animal to sedation/anesthesia/surgery.
